Experience

Prime Digital Academy | Minneapolis, MN
Full Stack Software Engineer
03/2023 - Current

- Solo Project - created a web app with some of my favorite games following the base principles of CRUD using front-end and back-end development.
- Through my experience during my solo project I learned to be self sufficient by using the tools I have available.
- Group Project - created a learning management system (LMS) that hosts content for the Baby Know: Bodies, Hearts & Minds program. The application is built for three types of users: administrators, students and teachers.
- Through my experience during my group client project I learned the value of planning as it is an integral part of Software Developement.
